02.10.-04.10.2024
6th HIS World Congress

01.10.2024 Pre-Congress Workshop

please check updates on our website:
www.hypospadias-society.org

Dear Friends & Colleagues,

Welcome to the 6th Hypospadias World Congress, due on October 2-4, 2024 in Cairo, Egypt.

We would like to welcome you, a Pediatric Surgeon, Pediatric Urologist, adult Urologist, Plastic Surgeon, Andrologist, Endocrinologist, Psychiatrist or a Basic Scientist to actively participate in this unique congress and meet the leading experts of our time. You will have the possibility to exchange scientific information and technical know-how. The key-note lectures are carefully chosen to cover the whole spectrum. A major highlight is the live surgery on Friday, October 5th that covers the whole surgical spectrum.

There will be valuable **Basic Science** (5000 €) and **Clinical Research** (1000 €) prizes for the best scientific presentations.

Hypospadias Surgery is now a well established specialty. There is still a lot that is unknown and there is a need to promote research and to exchange and promote knowledge and experience.

Hypospadias Surgery originated in Alexandria, Egypt, in the 1st century AD under the pioneers Heliodorus and Antyllus. In the modern era, the 3 major universities in Cairo have led the way to modern pediatric surgery and in particular hypospadias surgery.

Cairo is a vibrant international city with direct flight connections to all major cities of the world. In addition to the high quality scientific program, there will be an exciting social program that will enable you to experience and enjoy the Egyptian culture, Egyptian traditions and the delicious Egyptian cuisine.

You will experience the "1000 and One Nights" with us. After the Congress join us for a 7-day Nile Cruise tour, exploring Luxor, Aswan and Abu Simbel, followed by relaxation and diving in Hurghada at the Red Sea (international airport access for departures).

Looking forward to welcoming you in Cairo,

Ahmed Hadidi
President of the Congress
